Matt,

Attached are the comments on the plan that Harrison Western provided in November. The comments are tracked. (Allen looked over my comments and added a couple points.) There are some significant details that were needed and we can discuss this further with HW sometime in the near future (March is probably the soonest).

As for allowing for hours by HW to be billed to this Task in the short term, I am not willing to authorize any charges by HW before we meet. You and I can discuss this prior to that meeting.

We need to determine who's going to be responsible for what part of the work and what equipment also.

Let me know if you have questions.

Steve
